The News.

By a late dispatch, it will be seen that the Republican State ticket in Indiana is still in doubt. The Republican majority on the Ohio State ticket is about 15,000.

A Free State Convention has been called to convene at Lawrence, Kansas, November 10th, for the purpose of applying for speedy admission into the Union. If the Administration Democrats should secure a majority in the next Congress, the probability is that the Kansas difficulties would be all renewed again. There is, however, little danger of such a result.

The yellow fever continues unabated in New Orleans.

The American Institute have decided to leave the site of the late Crystal Palace, at New York, for the purpose of erecting a new building for exhibitions of the Institute.

The war in Mexico continues. The fortunes of the constitutionalists appear to be on the wane.

The bark *Parmelia Flood* from Green Bay, in this State, to Liverpool, arrived at Quebec on the 10th inst.

The Eastern breadstuffs market exhibited no change of importance on Saturday. Our own market was also unchanged. The weather was very pleasant during the day, but rather cloudy towards evening with indications of rain.

The News versus Free Labor again.

The *News* makes another faint effort to sustain its slave labor doctrines. In Saturday's issue it says:

The *Sentinel* and Hon. F. P. Blair, jr., appeared before the public a short time since as the champions of free labor, and they proposed to make labor free by removing from the country to some locality outside of the present limits of the United States all the *colored laborers*, so as to have all the labor within the United States performed by *white men*. This would create a necessity for more white laborers, or greatly increase the amount of labor which those who are already engaged in that vocation would have to perform; otherwise the staple productions of the country must fall far below the present average yield.

In the first place the *News* misrepresented us. The *Sentinel* has never "proposed to make labor free by removing from the country all the colored laborers." But the *Sentinel* has advocated the expediency of abolishing slave labor gradually and as soon as circumstances will permit, and also of restraining slavery within its present limits. We hold that the extension of slavery to the States where it does not exist would be ruinous to the interests of the free laborers, because the value of labor would thereby be depreciated. We do not advocate any Congressional interference with slavery where it now exists. Let the people of the slave States abolish it or not, as they choose, but *compel* them to keep their precious "institution" to themselves. It is our opinion, and the same was the opinion of the fathers of our Country, that slavery is a great wrong, and the sooner it can be got rid of the better.

But the *News* propounds to us the following questions, which it thinks will demonstrate the fallacy of our position. We will answer them in order:

First. Where are the *free white* laborers to come from who will take the places made vacant by the removal of these *colored* laborers?

With as much propriety might the *News* ask whence came the free white laborers who have taken the places made vacant by the abolition of slavery in Pennsylvania or any of the other States where slavery formerly existed? From the same sources, we answer.

Second. Are not the present free *white* laborers in the United States already over-worked?

If they are, it is because every interest of the country has been impoverished by democratic mis-rule, and the value of their labor depreciated by competition with three and a quarter millions of slaves.

Third. Would not a falling off in the amount of the productions of slave labor result in producing serious evil?

This is only a repetition of the first question. Instead of being diminished the productions would be increased by the encouragement of free labor.

The *News* further argues that if it be true that the free white laborers of the South are the most oppressed class in the country, "it proves that free laborers in the south are more oppressed than slave laborers in the south and yet the *Sentinel* advocates an increase of the former and a decrease of the latter!"

Again says the *News*:

"And by such means it would fain have us believe the condition of white laborers is to be greatly ameliorated!"

The *Sentinel* advocates the removal of the *cause* of this oppression, and by that means believes "the condition of white laborers is to be greatly ameliorated." What other arguments will the *News* invent in favor of slave labor?

Done and Undone.

FORNEY made BUCHANAN. The result in Pennsylvania shows that he is now unmaking him. He has been his most efficient friend—he is now his most powerful foe. Mr. BUCHANAN was right when he said to FORNEY, "You have the strong side and can carry the people with you." His own State, Ohio, and Indiana all repudiate him. Never was a more signal and telling rebuke administered to a corrupt Administration.

Republican Nominations.

PLOVER, Portage Co., Wis., Oct. 14, 1858.

EDITOR OF SENTINEL—*Dear Sir*:—The Assembly District composed of Portage, Marathon and Wood counties, held their convention yesterday, and nominated as good, true, and thorough a Republican as we have in the North-West, REUBEN C. LYON, of Grand Rapids, Wood Co.

The Republican Senatorial Convention, for the District, composed of Portage, Marathon, Wood, Waupaca and Waushara counties, met to-day, and re-nominated LUTHER HANCHETT. His election is sure by 2,000 majority at least.

Yours truly, G. R. W.

NOMINATIONS FOR THE ASSEMBLY IN THE FIRST AND SEVENTH WARDS.—The Democracy of the First and Seventh Wards had a stormy time of it on Friday night. They held a caucus for the purpose of nominating a candidate for the Assembly, at which Alderman SWEET is claimed to have been nominated. Mr. CLASON, the disappointed candidate, claims there was foul play in the nomination, and is bitterly opposed to Mr. SWEET. It is rumored that Mr. CLASON will now run as an independent candidate.

THE DEMOCRACY OVERTHROWN!

The October Elections.

Never was the Democracy more thoroughly "cleaned out," or more signally rebuked than in the recent elections in Pennsylvania, Ohio, and Indiana. The revulsion of public sentiment in these States is overwhelming, and where National Democracy was so triumphant in the last great contest, to-day wave the banners of Republicanism. The results in all of these States is even more satisfactory than the most sanguine friends of freedom had anticipated. There is no mistaking the meaning of the recent elections in these great States. They imprint most emphatically the seal of condemnation upon the series of frauds and villainies which began with the PIERCE Administration, and were continued by BUCHANAN. The people have expressed the abhorrence in which they hold such villainous doctrines as Locomptenism and Dred Scottism. Both of these monsters are practically killed, and withthem sinks the National Democratic Party. We anticipate the most happy results as the fruits of this victory.

The heavy Republican and Opposition gains in these States will undoubtedly be followed up by New York, Illinois, and other States, and the result will be to completely revolutionize the House of Representatives in the next Congress, and purge it of the traitorous Doughfaces who have sacrificed the interests of the North to gratify their lust for money or office. The Opposition which is composed of Republicans and Anti-Administration Democrats will stand side by side in the next Congress. Taking this for granted the chances amount to more than a probability for securing a Republican or Opposition majority.

We have gained eleven members in Pennsylvania, four in Ohio, and three in Indiana, making eighteen in the aggregate. These added to the two gained in Connecticut last April, will leave us, including anti-Administration Democrats, only *five* in the minority, and there is little doubt but that we shall gain more than this number in New Jersey, New York and Illinois. Thus it will be seen that we shall readily have a majority in the next House, and with that gained, the power of the Administration ceases. We append the result as far as obtained:

PENNSYLVANIA.

The opposition majority in this State, it is thought in the aggregate, will not be less than TWENTY THOUSAND! In his own State, the President has suffered a most annihilating defeat.—The members elect in Pennsylvania are as follows:

First District—Thomas B. Florence, Locompton, re-elected by about 500 majority. His majority in 1856 was 2,820.

Second District—E. Jay Morris, Opposition, re-elected by 1,500 maj. Two years ago it was only 893.

Third District—John B. Verree, Opposition, 1,100 maj. over Landy, present Lecompton member, whose majority two years ago was 1,180 — *Gain.*

Fourth District—William Millward, Opposition, 2,206 majority over Phillips, who had 2,-719 maj. in 1856. *Gain.*

Fifth District—John Wood, opposition, 2,000 majority over Owen Jones, Lecompton, who had 1,713 maj. two years ago. *Gain.*

Sixth District—J. Hickman, Anti-Lecompton Democrat, re-elected.

Seventh District—Logneeker, Opposition, probably elected. Two years ago it gave 1,632 Locofoco majority. *Gain.*

Eighth District—(Berks county,) J. Schwartz, Opposition, beats Glancy Jones, Buchanan's lieutenant in the present House, by 19 majority.—Two years ago Jones had 6,004 maj., and Buchanan over ten thousand! *Gain.*

Ninth District—Thaddeus Stevens, Opposition, elected.

Tenth District—John W. Killinger, Opposition, elected by 3,000 maj. In 1856 it gave 1,-867 Rep. majority.

Eleventh District—James H. Campbell, Opposition, is elected. In 1856 Locofoco majority 2,541. *Gain.*

Twelfth District—Scranton, Opposition, a large majority. In 1856, 2,785 Locofoco. *Gain.*

Thirteenth District—Dimmick, Lecompton, re-elected by 1,000 or 1,200 maj. In '56 he had a majority of 6,128.

Fourteenth District—Galusha A. Grow, Opp., re-elected by a large maj.

Fifteenth District—James T. Hale, Opp., 2,000 maj. over White, Lecompton, who had 580 maj. in 1856. *Gain.*

Sixteenth District—Ben. Junkin, Opp., probably, by a small majority. In 1856, 1,521 Locofoco. *Gain.*

Seventeenth District—E. McPherson, Opp., believed to be elected by small majority. Locofoco Congressmen two years ago had 1,505 maj. *Gain.*

Eighteenth District—S. T. Blair Opp.

Nineteenth District—John Covode, present Republican member, re-elected.

Twentieth District—Montgomery, Locofoco.

Twenty-First District—J. K. Morehead, Opp., undoubtedly elected.

Twenty-second District—Robert McKnight, Opp., elected.

Twenty-third District—William Stewart, Opposition, elected.

Twenty-fourth District—In doubt.

Twenty-Fifth District—Not fully heard from, but Babbitt, Opp. has probably five or six thousand majority.

TOTAL—Opposition, 21; Lecompton, 2; Anti-Lecompton Democrat, 1; to hear from 2. Hickman, who is classed as an Anti-Lecompton Democrat, will probably oppose the Administration throughout.

The present delegation, as classified at their election, stood 15 Buchanan, 10 Republican.

OHIO.

The returns thus far indicate the election of the following members:

First District—George H. Pendleton, Lecompton.

Second District—John A. Gurley, Opposition; *gain.*

Third District—C. L. Vallandingham, Lecompton.

Fourth District—M. H. Nichols, Opposition; *gain.*

Fifth District—Jas. M. Ashley, Opposition.

Sixth District—R. W. Clark, Opposition; *gain.*

Seventh District—Thomas Corwin, Opposition.

Eighth District—Benj. Stanton, Opposition.

Ninth District—John Carey, Opposition; *gain.*

Tenth District—Carey A. Trimbull, Opposition.

Eleventh District—Charles D. Martin, Lecompton; *Opposition loss.*

Twelfth District—Samuel S. Cox, Lecompton.

Thirteenth District—John Sherman, Opp.

Fourteenth District—Cyrus Spink, Opposition.

Fifteenth District—William Helmick, Opposition; *gain.*

Sixteenth District—C. B. Tompkins, Opp.

Seventeenth District—

Eighteenth District—Sidney Edgerton, Opp.

Nineteenth District—Edward Wade, Opp.

Twentieth District—James M. Hutchins, Opp.

Twenty-first District—John A. Bingham, Opp.

Total Opposition 17; Lecompton 4; to hear from 1.

Present delegation, Opposition 12; Lecompton 9.

There is a probability that THOMAS C. THEAKER, in the 17th district is elected over LAWRENCE, Democrat. This would increase the Republican *gain* in Ohio to six members of Congress. The Republican majority in the State will not fall far short of FIFTEEN THOUSAND. Well done for the Buckeye State!

P. S.—By a later dispatch it will be seen that the opposition candidate is elected in the 17th district. This increases the Republican delegation, according to our figures, to sixteen.

INDIANA.

We have already given the result in Indiana. We were in error, however, in putting down WM. S. HOLMAN as anti-Lecompton, he being a Lecompton Democrat, but not the regular nominee. Out of the eleven members of Congress, heretofore, the administration secures three, a Democratic loss of *fifty per cent*, the present delegation being six. The Republican majority in Indiana is about five thousand, and the Legislature largely Republican. All the Republican Congressmen were elected by largely increased majorities, except KILGORE in the fifth District.

From the New York Tribune of Monday.

Love and Deception—Flight of a Leading Merchant on the Eve of his Wedding.

A wealthy leather merchant of Williamsburgh named James Flora, late of the firm of Flora & Fenwick, who does business in the swamp, and has a branch establishment in Manchester, England, was engaged to be married to a beautiful young lady of Williamsburgh, but on the eve of the wedding suddenly disappeared. The merchant is a man of about 40 years of age, a widower, and the father of five children. The young lady is an orphan. She belongs to one of the first families in Williamsburgh, and was in every way a most eligible match. In addition to her personal attractions she is said to be a most accomplished lady, and the heiress to a considerable fortune. She is the junior of the gentleman to whom she was to be united, by some fifteen years.

Mr. Flora lost his wife at the South some time ago, and has since lived in Williamsburgh; of late he has devoted himself to the young lady referred to, and the wedding day had been fixed. In an unguarded moment her love overcame her discretion. As is too often the case under such circumstances, his love then abated, and upon various pretexts he postponed the day fixed for their marriage. At length, to bring matters to a crisis, the lady's brothers, one of whom is a wealthy contractor of Brooklyn, and the other a large farmer in Pennsylvania, had an interview with the gentleman the early part of last week, and told him that if he did not fulfill his promise they would take summary vengeance upon him. A second interview was had last Tuesday, at which the lady was present. The merchant then fixed upon Friday evening for the celebration of the nuptials. The wedding dress was prepared, the guests invited, and every preparation made for the ceremony. Friday evening came, the guests were present, the bride and her maids arrayed, and the clergyman in waiting; but the bridegroom came not. Saturday the brothers, accompanied by their sister, waited upon the Mayor, and a warrant for the merchant's arrest was issued.

It was supposed that he would leave for England in the steamer City of Washington, and officer Hilliard, armed with the warrant and accompanied by the brothers, boarded the vessel as she put into the stream, and accompanied her to Sandy Hook. Captain Petric afforded them every opportunity of prosecuting their search, mustering all the passengers on deck; but the missing man was not on board. He had, however, shipped 60 tons of leather by the vessel, and from subsequent information it is believed that he sailed for Europe in the Cunard steamer from Boston last Wednesday. One of the brothers will follow him in the Cunarder from this port next Wednesday, if it should prove that he has gone to Europe. To-day efforts will be made by the police and Justice Welsh to ascertain where he has gone. The young lady's brothers are resolved to follow him to the end of the world, if necessary, and bring him back to wed their sister, or make a terrible example of him for his crimes.

Flora was U. S. Consul at Manchester, England, during the Administration of Van Buren and Polk; but was displaced by General Taylor. We suppress the name of the lady for obvious reasons.

From the Iowa State Democrat.

The Conjeprezites—A new Religious Sect in Iowa.

Some sixty or seventy miles North of Council Bluffs in the county of Monona, about fifteen miles from the Missouri River, there is a town containing six or eight hundred inhabitants, generally known as Preparation.

This town is the Zion of a new body of religious enthusiasts who call themselves "Conjeprezites" and their system of religion or religious organization "the Conjeprezion," the meaning of which term remains to the Gentile world a profound mystery.

At the head of the organization is a man by name of Charles B. Thompson, who is besides the editor of a weekly newspaper called the *Newspaper*. This paper is large, well printed, and upon political and general subjects is edited with much ability.

Of this sheet one or two pages are usually devoted to the publication of what are called "open letters" upon religious subjects, addressed by Charles B. Thompson, as follows:

"*The Chief Apostolic Pastor and Evangelical Bishop:* To all the Elders of Israel, Evangelical and Traveling Presbyters of the Ecclesiastical Kingdom, and to Bishops, Presbyters, Deacons abroad Members of the Conjeprezion, scattered abroad throughout all the world, sendeth greeting."

These letters are all dated at "the tower of the flock," and are most curious specimens of incomprehensible cant, being made up of passages from the Bible, extracts from "the Book of the Law and Covenant of Israel" and remarks by the "Chief Apostolical Pastor" indiscriminately mixed up together.

From what we are able to learn from these letters, this curious sect believes in the Bible as the word of God; but also holds that it is in a measure done away with by new revelations made since the year 1848 by 'the voice' of "Baneemy" through the medium of the "Chief Apostolical Bishop." These new revelations are styled "the Law and Covenants of Israel."

The property of the organization is held in common, and the earnings of all are thrown into the common stock somewhat after the manner of the "Shakers." The people are said to be quiet and orderly in their deportment, moral in their customs, and most devotedly and blindly attached to their religion or system of belief.

However strange it may appear, this organization has during the last year rapidly increased from fifty to eight hundred members, and is still receiving large accessions to its numbers.

THE ATLANTIC CABLE—THE LATEST NEWS FROM VALENTIA.—The London *Times* publishes a long letter from Valentia Bay, which has had the effect to advance the shares. Mr. Henley's gigantic battery had arrived, and, it was hoped, would be able to work through the fault.

We confess we do not see anything encouraging in the *Times'* correspondence, which is made up of the most indefinite and unreliable speculations. The most encouraging statement in it, is the following paragraph:

"A very similar defect to the present occurred a short time ago in one of the North Sea cables. Mr. Varley and other scientific gentlemen tested the cable, and pronounced the defect to be 170 miles off. The cable was accordingly underrun and cut at a distance of thirty miles from the shore, when it was found that the defect was much nearer, and after a variety of other experiments had been tried *the faulty place in the cable was discovered not out at sea at all, but actually in the portion of the cable buried in the beach.*

The above incident, which I believe to be substantially correct, should teach the authorities of the Atlantic Telegraph Company not to pronounce their scheme a failure until the theoretical experiments (which are but uncertain guides, no matter how ably conducted,) are verified in some measure by practical test.

HENLY'S BATTERY.

Henley's magnetic-electric machine, which is said to be the largest ever constructed, is thus described:

"The two permanent magnets, from which the electrical induction is obtained, are each composed of thirty horse shoe steel magnets, two feet and a half long, and from four to five inches broad. The induction coils attached to these each contain about six miles of wire. Some idea of the power of this instrument may be gathered from the fact that one shock from it, if passed through the human body would be sufficient to destroy life. With the aid of this instrument Mr. Henley *hopes to be able to work through the cable during some part of each day, even if the fault should prove irreparable.*

Observation of the Total Eclipse of the Sun.

NEW YORK, Oct. 15.

By the *Star of the West*, we learn from South America that Lieutenant Gillis, U. S. N., has satisfactorily completed his observation of the total eclipse of the sun, on the 7th ultimo. He went to a point one thousand feet above the level of the sea, and two hundred miles from Paita, to which point he had returned. He was going to Lima and probably to Chili. The only other astronomer present was a German from Santiago sent by the Chilian government.

ST. LOUIS, Oct. 15.

The Salt Lake mail arrived at St. Joseph on the 9th.

The troops had nearly completed their huts, and would go into winter quarters on the 16th of October. Every thing was quiet in the Valley.

Fort Smith, Arkansas *Times*, extra of the 8th, contains a letter from Lieut. Powell, dated Fort Arbuckle the 2d, giving an account of the battle between a detachment of the 2d Cavalry on the 1st, in which Lieut. Von Camp and four men were killed. Major Van Deren and ten men were wounded. There were forty Camanches killed.

Shipments from Milwaukee.

By reference to our commercial columns, it will be seen that the shipments of wheat from this port for the week ending Saturday, are 128,-161 bushels, including flour, and for the season thus far four millions six hundred and thirteen thousand and ten bushels. By comparison with the shipments to the corresponding date last year, we have the following result:

	Wheat.	Flour.
1857	1,937,126	158,731
1858	3,481,970	225,208
Increase,	1,544,854	67,477

Which shows an aggregate increase in favor of this season of 1,882,239 bushels of wheat. If to the total of wheat we add the shipments of other grain for the same period, it will be seen that the whole amount of grain shipped from Milwaukee thus far this season is five millions two hundred and seventy-eight thousand, eight hundred and forty-six bushels.

CLOSE OF THE RAWSON CHILD CASE.—The case of Mrs. RAWSON *versus* Mr. and Mrs. ROBERTS, for retaining her child by the writ of *habeas corpus*, came up on Friday afternoon at 2 o'clock, before Judge PAINE. Mr. BUTLER for the petitioners, Mr. RYAN for the respondent. Able arguments were set forth by the counsel on both sides, who evidently had deep feeling in their cause, and at times were really eloquent. At 5 o'clock P. M. the Court adjourned. The case was resumed at 11 o'clock Saturday forenoon, when Judge PAINE gave his decision that the child should be delivered to the care of the respondent, Mr. ROBERTS.

The Judge's opinion was delivered in the kindest tone, with a tender regard for the feelings of Mrs. RAWSON, who was greatly affected. He said he was convinced that she was the mother of the child, but notwithstanding the strong natural feelings she must have as a mother, she would, if a true one, be happier in knowing that her daughter would lead a respectable and virtuous life, than to have her surrounded by such influences as her position must place her under.

The child is about eight years of age, very well appearing, and her mind appears to be untainted by her former corrupt associations. Mrs. RAWSON embraced her child tenderly, perhaps for the last time, as little EMMA was led away by the officers.

THE FIRE ALARM SATURDAY MORNING.—The fire alarm on Saturday morning, between four and five o'clock, was occasioned by the burning of a small building north of the city. It was so far off that none of the fire companies went to it.

ALARM OF FIRE ON SATURDAY NIGHT.—The whole city was thrown into an uproar on Saturday night about 10 o'clock, by an alarm of fire. The bells tolled lustily for nearly half an hour, and the firemen ran hither and thither through the streets shouting at the top of their voices. Nobody could discern the fire, however, but we learned that the alarm was caused by the burning of a barn in the outskirts of the 9th Ward.

At a special meeting last evening, of the American Institute, it was decided to apply for a lease of the site of the late Crystal Palace, for the purpose of erecting a new building for the exhibitions of the Institute.

At a meeting of the Crystal Palace exhibitors also held last evening, a resolution pledging the meeting to a support of the movement for National Union was carried.

Details of the Mexican news have been received. The statement of the defeat near San Luis Potosi, of Vidaurri, by Miramon, is confirmed.

Other battles on a smaller scale, had taken place, but the result is less doubtful. It would seem, however, that the fortunes of the Constitutionalists are on the wane.

The report that Garzia had imposed a forced loan at Tampico, is also fully confirmed.

The French consul had applied for some national vessel to protect French merchants at that port.

The Washington correspondent of the Tribune says Gen. Cass wrote a letter yesterday to Jerez, the Nicaraguan minister, declaring his mission closed, and recapitulating the grievances suffered at Nicaragua.

Washington Matters.

WASHINGTON, Oct 16.

The balance in the Treasury is $9,270,625.

Secretary Jones has placed in possession of the State Department a letter from the U. S. Consul at San Luis Potosi, who describes the state of the country as miserable in the extreme.

The report of the recent bout between Vidauri and Miramon rested on a very slender basis. A skirmish may have taken place outside the walls of San Luis Potosi, but nothing more, still less was there any probability that Miramon had committed suicide.

Boston Matters.

BOSTON, Oct. 15.

Judge Sprague, of the U. S. Circuit Court, in his charge to the grand jury to-day, so defined the law so as to render it quite certain that Capt. Townsend, of the alleged slave brig Echo, will have to be taken to Key West, that being the first port at which the Dolphin touched with the prisoners.

The Americans of the 3d district have nominated Moses G. Cobb for Congress. In the 1st district Jno. C. Wilson is the Democratic nominee.

A TERRIBLE ENCOUNTER WITH BULL DOGS.—Yesterday, Reed R. Young, the well known pilot, was most terribly bitten and lacerated by two fierce dogs, the property of a milkman of the name of Rinehart, we believe. It occurred in the Salt River lane, in the lower part of the city, just as Mr. Young was walking towards the railroad track. The dogs suddenly jumped on him, one seizing him by the calf of the leg, and the other attempting to catch him by the throat. He had presence of mind sufficient to throw up his arm in defence of his throat, and the dog seized him by the arm, tearing away the clothes and flesh in a terrible manner. The other dog tore the flesh from his leg, severing an artery.—He then caught Young by the top of his head with his teeth, and literally tore off the scalp.—The other dog fastened his fangs in his breast, and had so completely worried and bitten him, that he was almost exhausted and entirely overpowered, and but for the timely assistance of a neighbor would have been killed outright. The man attacked them with a club, and had much difficulty in getting them loose from their prey.

Great excitement was caused in the neighborhood by the terrible affair, and a crowd of people assembled to hang the dogs and kill them.—They were shot with bird-shot, but got away before more effective weapons could be obtained.—A party, however, soon started in pursuit, with rifles and axes, and they will be certainly killed as soon as found. Mr. Young was a tall, stout man, and was one of the survivors of the terrible Pennsylvania disaster. We hope the wounds inflicted by the dogs will prove less dangerous than represented, and that he will soon be out again.

We learn that one of the dogs was killed, but the other escaped. A boy was the first one to interfere in behalf of Mr. Young, by shooting at one of the dogs with a pistol, scaring the brute off. The muscles of both of Mr. Young's arms are terribly torn, and he is also severely bitten on the back.—*Louisville Courier, 5th.*

☞ A foolish paragraph from the New York *Herald*, commenting on the burning of the Crystal Palace, and concluding therefrom that there is no safety in iron, is going the rounds of the press. There is safety in iron, but the New York Crystal Palace was not built of it, having been more than half wood. It was originally designed to be entirely iron and glass, and consequently fire proof, but to carry out this plan it was found would cost more than the means at command, and so the thing was economised by substituting a large amount of wood.

Modifying their Views.

It can not but have been observed that the *News* and other Democratic organs of the North, have lately evinced a disposition to deny that theirs is the pro-slavery party, although they dare not come out boldly and express an opinion against slavery. This result has been brought about by the tornado of popular indignation which the policy of the Democratic party has brought upon its own shoulders. However much they may desire to blindfold the people as to their present sentiments, the facts and the history of the past are all against them. They it was, who repealed that time-honored barrier between slavery and freedom, the Missouri Compromise, and the slave holders, with good reason, claimed it as a victory. They sustained the border ruffian Legislature and offered all manner of excuses in palliation of the disbolical attempt to force slavery on Kansas, and the slave holders claimed those as acts done in their interest, and rejoiced in their success in procuring the passage of the English Bill, which was a direct insult to the free laborers of the North. They sustain the Dred Scott decision, which carries and protects slavery wherever the flag of the United States goes, and the slave holders do the same.

The disunionists at the South, who threaten dissolution of the union if the people refuse to accede to all their demands, and men who scoff at the free white laborers of the North and call them *"a servile class, unfit for self government,"* are all co-workers with the Democratic Party.—But this is not only a fact derived from implication plain and conclusive as that is. Every now and then, some prominent Southern Democrat confesses frankly the exact condition of affairs we state.

Thus Col. Orr, Democratic Speaker of the House of Representatives, in a recent speech, said:

"With regard to slavery, he thought it *better protected under the government than it had been for thirty years.* As to the future, he was for co-operation with the DEMOCRATIC PARTY. He would go into convention, go into caucus, seek to have an influence in it by ruling AND CONTROLLING IT."

Kelst, the fire eater, has also recently uttered these words:

"The Democratic party, he thought, was sounder now than it had been for years. It was so because THE SOUTH WAS NOW THE MAJORITY IN THAT PARTY, and had driven off from its numbers all the tainted, timid and feeble members of it from the North."

He also stated that when he started for Washington last winter, he proposed to oppose the President, but found him "upon the PLATFORM OF THE SOUTH."

Thus Speaker Orr avows his sympathies and intention to co operate with the Democratic party in future, *because* under its present administration "*slavery* is better protected than it has been for thirty years." This same administration which Keitt and Orr claim is and can be controlled by the slaveholders, the Democratic candidates for Congress in this State are *pledged* to support.

Judge Larrabee "Used up" by a Young Lawyer!

Judge Larrabee had his "coffee sweetened" at Oconto' the other day, in earnest. He made one of his usual *set* speeches there recently the fallacies and absurdities of which drew forth a reply from J. A. Culver, a young but eminent lawyer of that place.

We publish a sketch of Mr. Culver's reply in another column which will fully repay a perusal. Its sarcasm is withering, and the conclusions truthful. The Dred Scott apologist will not be likely to covet a contest with another such opponent as Mr. Culver; to use a common phrase he was completely "used up," not a point of his flimsey arguments was left uncontroverted. The Oconto people and the "broad shouldered" pinery boys turned out *en masse* to hear their talented young townsman, and manifested their approval of his sentiments by the most enthusiastic demonstrations.

JUDGE POTTER AT WORK.—By a list of Judge Potter's appointments, which we publish elsewhere, it will be seen that our candidate is not idle, undoubtedly believing that by evincing a disposition to help himself, the people will help him. Judge Potter has addressed the voters daily, and sometimes twice a day, since the opening of the campaign, and everywhere he has been received with the warmest enthusiasm. In every contest, thus far, with his opponent, the latter has come out of the arena badly worsted, to make up for which his organ, the *News*, charges Judge Potter with unfairness. This system of mis representation, however, will avail the Democratic candidate nothing, for the people who have attended the discussions are aware of the *facts*, and will pronounce their decision accordingly. We should have published the list of Judge Potter's appointments earlier, but for the fact that it was mis-laid, and we only got our hand upon it yesterday. Let the voters give our faithful Representative a bearing.

PROGRESS OF THE CAMPAIGN.

Judge Larrabee's Coffee Sweetened—His "Big Whiskers at Sixteen" Singed—Republican vs. Democratic Velocipedes—Who Drew the Big White Elephant?—Is He Still at Large? "National Democracy a Trosteal Plant"?—A New Candidate for the Presidency!—Barstow the White Lamb of Democracy—Fun in Oconto—The Pinery Boys Coming Out.

OCONTO, October 11th, 1858.

GEN. KING—*Dear Sir:*—Judge Larrabee, the Democratic nominee for Congress, in the Third District, rehearsed his regular speech at Oconto on the 1st of October. The Republicans immediately issued handbills, giving notice that the Judge's speech would be replied to, or rather, that his "Coffee would be sweetened, and a drop of lemon juice squeezed in," on the 9th inst., by J. O. Culver.

At the appointed hour the Court House was filled with citizens, and broad-shouldered pinery boys from up the river, who came to see the fun. We give but a brief analysis of the speech, which was nearly two hours long.

Mr. Culver said that he was much interested in Judge Larrabee's speech on the 1st inst., inasmuch as it was announced by the President of the meeting, that the Judge would "speak on National Democracy." That he, the speaker, had planted many seeds received through the Patent Office, but none from papers labeled "National Democracy." That National Democracy is a tropical plant. It does not flourish in free soil. It is almost impossible to find it North of Mason and Dixon's Line. The winds up this way are too fresh for it. Free mountain air and prairie breezes destroy its vitality. Even as far South as Illinois, it has a Douglas scion grafted on to it. A black thorn root with a crab apple graft, is not a profitable plant. The fruit is so bitter that the farmers have been cutting it down, and probably there will not be a shoot left after November. Larrabee, instead of cultivating the real tropical, thorny *Upas*, has put a graft into the Douglas scion, and the sap diminishes in flavor and excellence as it ascends.

Judge Larrabee made an excuse for not having a good speech for you. He said he had "been a Judge and *above the arena of politics*," but had been in Congress, he thought he "might have learned to speak. In Congress forsooth! *Poetae nascitur non fit.* Congress does not give men brains. You all know that the Judge has been paid fifteen hundred dollars a year for presiding over a court where he had an opportunity to hear and study the very highest styles of eloquence. He has studied it, and you know, fellow-citizens, that his remarks were merely to cast a slur on Billinghurst, because Mr. B. does not usually vociferate vehemently, and bore his auditors two or three hours at a time, after the manner of modern democratic orators. A statesman should possess a keen intellect that can cut through the subtle meshes of sophistry; he should be a man able to lay bare the heart of a subject; a man of principle, and pledged to support everything white and progressive. That Mr. Billinghurst, judged by these rules, is one of the ablest and most successful representatives we have had in Congress.

Judge Larrabee begged the privilege of "coming down to the constitution of the United States;" why did he not come down to Section 10, Article VII, of our State constitution, which says that the Judges of the Supreme and Circuit Courts "shall hold no office of public trust, except a Judicial office, during the term for which they are respectivley elected," and that "all votes given them for any other office shall be void."—Judge Larrabee's term of office, as Circuit Judge, has not yet exired. This constitutional restriction is to prevent corruption. The speaker did not say that Judge Larrabee while on the bench, had favored any man to secure his own nomination; but he did say, that he might have done so, and if the Judge has not been corrupt, he is acting in plain violation of the constitution, according to the Judge's own rule of "strict construction." Why did he hold on to the bench with both hands, after his nomination, until he was pushed off by the crushing avalanche of public opinion?

The case of Doolittle was not analagous. He resigned long before his election. The Judge's tirade on the U. S. Bank was about as applicable as a history of the Scandavians, or a disquisition on wooden spoons would have been. No one cares anything about the Bank, unless Buchanan wants to start one to *raise the wind*, and redeem his credit. A few more years of democratic rule, and fizzling Mormon excursions, and we shall be compelled to go back to the mother country to be taken care of. Larrabee said he had understood that when Billinghurst was here, he was introduced to the audience as a man who had "sucked in Republicanism with his mother's milk." The Judge has been parading this all over the district. The speaker said *he* introduced Billinghurst and what he said was, that Mr. B. "was born a Republican," and he repeated it. If that was treason, make the most of it. He said nothing about milk, nor milk and water; that was for Larrabee to dwell upon. Billinghurst had always been a Jeffersonian democrat, but Judge Larrabee left the Jeffersonian doctrine in 1854, to suckle at the breast of the black wench slavery,—he is now hunting for more milk.

> "A plague on his milk teeth,
> "We must lay some wormwood on to wean the child."
> He bites a little on Lecomptonism.

Larrabee said Billinghurst was log-rolling with him "at the democratic convention, at Waupun, in 1854." A Circuit Judge rolling logs at Waupun! This same Circuit Judge rolled up fifty log heaps, at Fond du Lac in 1858. Did he do all this without soiling his judicial ermine?

Larrabee said "the Nebraska Bill localizes slavery by restricting the power of Congress over it, but the Republicans want to nationalize slavery by giving Congress power over it. Localize a cancer by sending away the doctor. Localize a fire by "restricting" the power of the fire companies. Localize the small-pox by letting the subjects run at large. Let the Judge localize such small beer logic, by keeping corked up. Can you localize humbug by letting such democratic homogognos *"loose in the deestrick?"* Will not the voters localize Judge Larrabee's field of operations to a little law office down in Horicon?

The Judge said "the day a State is admitted it can turn around and change its constitution; then is it not folly to say it cannot form a constitution with or without Slavery *before* it is admitted? Very logical! The day a man is twenty-one years old, he can vote, and make legal contracts; now is it not folly to say he can't do it *before*. He could if it were not contrary to law. But, continued the speaker, this would be no impediment to Judge Larrabee—for he said down at Menomonee, that he had voted the Democratic ticket when he was sixteen years of age,—"he had big whiskers, and they didn't know the difference,"—and that he "gloried in that vote." This accounts for his Nebraska logic. Anything is legal if you don't know the difference. Big whiskers cover a deal of iniquity, at sixteen and sixty, and 'tis just as well, if you don't know the difference. Lecomptonism is not a fraud if you don't know the difference. Judge Larrabee is a good reasoner if you don't know the difference.

The speaker said he would strip the veil from Judge Larrabee, and point to him as a boasting violator of the law. The Menominee boys are law-abiding, and were disgusted with this "big whiskered boy of sixteen," as pained by himself—the *little* man of forty.

The Judge said he had "set out in life with the determination of becoming President!" Precocious youth, was that the reason his whiskers were big at sixteen?

> "And stars shot madly from their spheres,"

He is not the coming, but the *come*, man.—Yet we foolish people are gazing at the Comet and other trifling celestials, and indeed worldly bodies, regardless of the advent. Alas! his big whiskers are totally eclipsed by the Comet's tail.

The Judge said "Billinghurst has no platform, except the resolution about returning to first principles—Bashford returned to first principles when he got the bonds." Then Judge Larrabee's idea is that returning to first principles is plundering the Treasury. A Democratic idea, certainly. When asked how it was with Barstow's return to first principles, the Judge replied in a wild, violent manner—"You can't trace a thing to Wm. A. Barstow's door. Just prove anything against Wm. A. Barstow if you can." The Speaker said that Barstow was, so to speak, put in charge of the school children's dinners. When the children came out of school at noon they found empty pails, and inquired of William about the dinners. Dinners! He hadn't had any dinners. He didn't eat dinners himself. His friends didn't eat dinners. "Don't accuse me of stealing dinners, but prove that I had my hand in the dinner pail!" The children could not prove it, for there had been no one present but Barstow! Yet it was so plain and apparent that he had robbed the school children of the bread of life, that the people had stamped Barstow with the verdict of *"guilty,"* and let Larrabee rub it out if he can. Really now, is Judge Larrabee running for Congress, or only making that an excuse for going round the State to white wash Barstow? Larrabee licking white, the fleece of this pet lamb Barstow! It would make a very pretty pastoral picture if we could not see the wolf's ears sticking through Larrabee's "big whiskers."

The speaker then alluded to the Judge's remarks on the velocipedes, and described the one that Buchanan rides. The forward wheel is the Dred Scott decision, declaring that the Constitution carries Slavery into the Territories, while the hind wheel is the Kansas-Nebraska bill, declaring that the people have Slavery or not, as they please. One wheel runs one way, and the other, the other way, and there sits Buchanan kicking his toes against the ground unable to move an inch! In his foolish struggles to make both wheels run one way, he will probably tip himself into the ditch. The Republican velocipede has for its front wheel, Constitutional power, through Congress, to prohibit Slavery in the Territories, and behind is the great wheel of Northern Sentiment, urging the forward wheel on to the neck of the black serpent Slavery. This velocipede will yet go across the plains of the great West, scattering from States on each side.

The Judge denied that negroes were originally from a white race, for they could never tan to black. He said he had been South for three years, and did not see any difference. The speaker here walked into this popular democratic theory. He said that as for Judge Larrabee not seeing any difference in the color of his skin he would say, that niggers are not always black. But of course the Judge could not tan on account of his "big whiskers." "Negroes are weak and must have masters," says the Judge. The weak are entitled to our sympathies. We do not abuse and maltreat women, because they are weak, and we *can* abuse them.

Every true man will fight as long as he can stand, over the body of a poor, weak, helpless fellow-mortal; only your democratic cowards sneak away and say, "he is weak and needs a master." God's arm is long. It stretches down through all the grades of humanity, and brings the lowest and weakest up to the sun-light of liberty, and near to our sympathies. Judge Larrabee must reason away the promptings of the human heart, before he can reason chains onto the wrists of negroes—reason God out of the universe before he can reason slavery in.

Mr. Culver then roasted Buchanan on the burning iniquity of the English bill. Is it democratic to allow 30,000 nigger-drivers to form a slave state, and require 93,000 freemen to form a free state? This places free white men beneath slaves, who have a three-fifths representation.

Larrabee, in speaking of river and harbor improvements, said, "Virginians make a distinction between salt and fresh water, but I can see no difference, except that fresh water is fresher than salt water." The Judge's ignorance will not long be blissful, for, after the second of November, he will have an opportunity to test the quality of some of the saltest water this side of the Dead Sea.

> Democracy will ride upon, thy surging tide,
> Then dark, deep, cold Salt River.

Democracy says that cotton sacrifices the ship it sails in, and all southern harbors must be improved; but the vessel that holds your good free soil wheat may go to the bottom. There is a ban on wheat raised on such land—your honest sweat rusts it. President Pierce vetoed a bill for the improvement of harbors on Lake Michigan, and with the same quill sanctioned a large appropriation for the harbor of Mobile. This quill was plucked from the bird of "our whole Union" too. The Judge said, "I have understood that Billinghurst spoke of the extravagance of the present Administration. Well, that doesn't amount to much; I have not much to say on it. The country is getting larger." The Judge is like the man that drew the big white elephant in a lottery—he couldn't harness it; couldn't ride it; couldn't keep it at home, and he dare not let it go at large for fear it would kill the neighbor's children, so he left the country and let the confounded animal run! Yes, the country is growing larger; but only in the proportion that the population increases. Yet, while it only cost forty-eight cents for each inhabitant under the Administration of John Adams, it now costs at the rate of three dollars, to support the Government. The pockets and purses of democratic jobbers are growing larger, and the consciences of democratic office-holders are growing smaller—their honesty less. Look at Buchanan's White House bill—in 1840 the only item except President's salary, was $4,165 for furniture, trees, plants and gardening; now, Buchanan's expenses, besides his $25,000 salary, is $31,200 per year. What is his $25,000 salary for but to pay his expenses? We give some items of the expenses of maintaining this Bachelor's Hall:

Messenger, Secretary and steward,	$4,600 00
Contingent expenses and stationery, (billet doux papers?)	750 00
Furniture, garden, &c.,	1,200 00
Door-keeper and assistant,	1,200 00
Books,	250 00

This is equal to the tavern bill found in Falstaff's pocket the time he ran away from the sheriff, and fell asleep at the Boar's Head Tavern, Easton:

Item, a capon,	2s. 2d.
Item, sauce,	4d.
Item, sack, 2 gallons,	5s. 8d.
Item, anchovies and sack after supper,	2s. 6d.
Item, bread, a half a penny!	

Furniture, gardens, &c., $12,000; Door-keeper $1,200; Books, $250!

Buchanan don't want books. He wants to walk in and out, and see what a $1,200 door-keeper performs. Spending $88,000,000 per year of our money, occupies too much of his time to leave opportunities to read books. "Buchanan reads the New York *Ledger*." No books for him—he will have no books! From the Bible down, they are tinctured with black Republicanism. Door-keepers, and the paraphernalia of slavery are to Buchanan, what *sack* was to Falstaff, and the beggerly books go in with the half-penny's worth of bread.

We give but a meagre sketch of Mr. Culver's speech; it was received with enthusiastic applause. It added to the young lawyer's growing reputation as a speaker; his sarcasm cut to the heart.

John J. McClellan, of Oconto, the Republican nominee for Assembly in this district, followed Mr. Culver, in a brief, but telling and eloquent speech on Republicanism, and overthrew Judge Larrabee's position on Kansas and Nebraska.

The Republicans intend to send their talented young candidate McClellan to the Assembly, and give Billinghurst a good lift, in November.

Yours, E.

Seduction and Infanticide in Memphis.—A short time since, under the head of a "Mysterious Visit," an article appeared in the Memphis *Appeal* describing the visit of a physician and two ladies to a house that had been closed for some time previous, and expressing the conviction that one of the ladies had become a mother there. The *Appeal* now states that on Wednesday a circumstance occurred that has in a measure cleared up the mystery, though it omits names, out of respect to the family of the party most interested. A few days ago, about three hundred yards from the house above mentioned, the corpse of an infant was found in a small box, the marks of compression on the skull showed that it had met a violent death. A coroner's inquest was immediately held, from which it appeared that the lady belonged to one of the best families of Memphis, but had fallen a victim to seduction. The nurse who was in attendance testified to the following facts:

The nurse stated that she was compelled to go home that night, and could not remain in attendance on the mother, as the doctor wished her to do. It was therefore decided that she should take the babe with her and nurse it. She did so, but was under the impression that it would not live, as she thought it was of premature birth. Her expectations proved correct, for before morning the child was a corpse. She informed the physician of the occurrence, who sent a hack and coffin for the body, which was put into the coffin, the driver screwed on the lid and took it away. She had visited the mother once since the death of the infant.

The physician corroborated the nurse's testimony, and the jury returned a verdict that the child came to its death from violence, from the hands of some person unknown. A curious verdict, after the above testimony.

Progress of the Sandwich Islands.—The progress of the Sandwich Islands since the introduction of Christianity there, is a significant example of the happy influences of the Gospel. The Boston *Traveller* thus expresses its reflections upon this subject:

If one desires to obtain a true judgment of the progress of the Sandwich Islands during the present century from Idolatry to Christianity, from barbarism to a high state of civilization, he should carefully peruse the two newspapers now published at Honolulu—the *Polynesian* and the *Commercial Advertiser*—which are well printed and ably conducted papers of nearly the size of the *Traveller*. In addition to the editorial and news columns, he should not forget of all things the advertisements, for they often give the best idea of life and business in the community where they are issued. In the paper before us, which was printed only months since, we have announcements of packets to various parts of the world; expresses to California, the United States and Europe; of daguerrean and ambrotypo galleries; of a law term of the First Judicial Circuit Court (Island of Oahu;) of the meeting of the various Masonic Lodges; of Oregon hams and California cheeses for sale; of a depot for the sale of forty different newspapers published in California, Oregon and Washington Territory; of a reward of $1,000 for the detection of the persons who robbed the Custom House; of the sale of the First Volume of the Hawaiian Law Reports comprising many of the most important decisions and rulings of the Superior Courts of the Kingdom during the ten years ending with 1856; of the meeting of the Hotel Keepers' Club; insurance notices; billiard tables for sale; and also every imaginable comfort and luxury, including jewelry of every kind. A coffee plantation containing fifty thousand coffee trees upon 1050 acres is offered at bargain. In fact a complete map of a busy civilized life is furnished to the reader. What a change is here, and all accomplished in the space of fifty years. It is also evident that nearly the entire trade of these rapidly advancing islands is with the United States, and principally with Boston.

American Railroad Iron.—It is worthy of notice that American manufactured railroad iron is beginning to attract attention on account of its intrinsic merits, notwithstanding the low price of British manufactured iron on sale for credit, and the fact that our rolling mills from their losses are working under the disadvantage of taking cash for nothing. We copy from the Baltimore *American* the following:

The Alexandria *Gazette* mentions the arrival at that port, *via.* the canal, of about 800 tons of iron rail from the Mount Savage Iron Works, near Cumberland, Maryland, for the Orange and Alexandria Railroad. We are highly gratified, says the *Gazette*, that our railroad companies are beginning to look to the furnaces of our own, instead of those of foreign countries, for their supply of rails. The fact that railroad iron manufactured in our own country has a toughness and durability not long be blissful, for, after the second of November, he will have an opportunity to test the quality of some of the saltest water this side of the Dead Sea.

An Effectual Remedy for the Bite of a Rattlesnake.—We clip the following from the Bloomington *Pantagraph*, and commend it to our readers in the country:

Hyatt, Anderson Co., Kansas, October 1st, 1858.

Mr. Editor:—In your paper just received, I see an account of the death of a person in McLean Co., from the bite of a rattlesnake. As it may probably save the life of some person, I will give a sure antidote for the bite of snakes. Thoroughly saturate the place bitten with the tincture of Iodine, and give five or six drops on sugar, and it will prevent any bad effects from the bite.

My son Samuel has been engaged in collecting snakes and reptiles, for the Smithsonian Institution, and has been bitten several times by rattlesnakes, and in every instance has been relieved by the use of the iodine. I have also successfully used it in other cases.

Yours, W. F. M. Arny.

Tom Corwin's Horse.—At a public meeting in Cincinnati, a few days before the election, Tom Corwin made a speech, in the course of which he said:

"I think I could convince every impartial man that the horse of Popular Sovereignty was a dead horse—blown to atoms by Democratic guns. And as for that wind broken, spavined pony, the Wilmot Proviso, he was sired by Thomas Jefferson himself, and it's the horse I mean to ride while there's a hair in his tail."—[Laughter and cheers.]

The "Wagon Boy" being now fairly mounted for the next Congress, we may look for some tall horsemanship before it is ended.

STRENGTH AND HEALTH RESTORED.

Mr. John Davidson, living ten miles above Pittsburgh, on the Pennsylvania Canal, says:—"When I commenced taking Brehaven's Holland Bitters, I could hardly walk. Now, I enjoy excellent health."

HEADACHE AND DEBILITY.

Mr. Silas J. Liscomb, of Birmingham, says:—"I have found in Brehaven's Holland Bitters a remedy for Headache and Debility. My wife has also used it with the greatest benefit."

Mr. A. S. Nicholson, of Pittsburgh, also remarks that he has experienced much relief from its use for head ache.

A Faithless Wife—A False Friend.

From the Louisville Democrat.

The following story of life, came to us yesterday, vouched for as true, but all the names withheld. It is only another evidence of what curious notions some people hold of virtue and honor.

Some weeks ago, a loving couple separated, the wife leaving the city ostensibly for the purpose of spending several weeks with her relatives, in one of the Eastern cities. By appointment, she was to go in company with a Californiac—a friend who, being about to return to the land of gold, offered his services to see her safe among her friends. The parting between the devoted husband and the affectionate wife was, as might be expected, too sacred for vulgar eyes to witness; but the parting concluded, as all things human will end, and the husband wended his way to business. The wife and her compagnon du voyage, seated side by side in the omnibus, were jostled over the rough streets, and crossed the river. At the depot, it is supposed, they changed their destination, and instead of stopping at Seymour for the Cincinnati train, as was at first designed, they continued on to Indianapolis. Stopping at one of the principal hotels, they were registered as man and wife. Instead of departing on the next day, they remained to a second and third day. A week passed by, and still they occupied the room at the hotel.

During this stay, the wife consented to fly with her paramour to California, and began to make preparations accordingly. In the preparations nearly or quite a second week passed away. The landlord became impatient for his bill—the wife's money was all gone. When this fact became known to her companion, he very wisely and gallantly determined to take care of himself, and was suddenly taken with a leaving—without so much as saying good bye, or leaving any note of his intentions, or hint as to whither he had gone. The wife was alone in a strange place—without money, without friends, and two weeks' hotel bill to pay, and nothing to show but some of his old clothing.

In this dilemma, she fortunately met with some acquaintances from the city, who advanced the money to satisfy the landlord's demands and take her home again. But the question was, how she could face her husband, and what account give of herself? Invention was for once, at fault; and on the arrival of the omnibus, instead of driving home, she hired a hack and was taken to a house in the upper part of the city.—In that house she spent some three weeks, in what may be imagined, anger or returning into the secret fast she should be detected.

One Sunday afternoon, about the close of the third week of her self-imprisonment, she was startled by seeing her husband driving up to the house.

Great dread came over her, which she could not shake off—every moment expecting his summons; but it came not. He had but called for his own pleasure, and shortly left with one of the girls of the house. They were gone till dark.

Meanwhile the wife had screwed up her courage up to the sticking place on finding him also unfaithful, and on his return met him in the reception room with the querry whether he would not take her out also.

His surprise may be imagined. Both knew themselves guilty; both forgave and promised to forget, and left the house for home—she actuated possibly by a sincere desire to reform, her five weeks of unlawful love having satisfied her of the miseries awaiting her.

They are now living together, our informant says, as pleasantly as before the journey, having again mutually avowed eternal fidelity.

What a strange world is ours!

The Great Balloon Race at Cincinnati Final Arrangements.

We understand that the final arrangements for the great balloon contest between Prof. J. H. Steiner, of Philadelphia, the Young American Aeronaut, and Mons. Eugene Godard, the celebrated French Aeronaut, were concluded yesterday, and that the following gentlemen consented to serve as a committee, under whose general direction the exciting affair will come off: T. W. Thomas, Mayor; Capt. Charles Ernest, Charles M. Miller, David A. Tenax, and W. J. Mitchell.

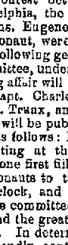
The stipulations will be published at length. In brief, they are as follows: Both balloons are to commence inflating at the same hour, 10 o'clock A. M.; the one first filled is to wait for the other; both aeronauts to take their respective cars at four o'clock, and at a signal from the chairman of the committee, the balloons are to be cast loose, and the great trial trip to the clouds commenced. In determining who is the victor in this friendly contest, the one who travels farthest from the starting point will be declared to have won the champion's meed of praise.

If one aeronaut goes fifty miles in one direction and is then driven back the same distance, the fifty miles travelled counts for him in making up the aggregate, provided he furnishes evidence to the committee that he has been to such and such points, either by descending himself or sending down dispatches. How long the aeronauts will remain in the air, is a matter for conjecture. They will probably take along sufficient refreshment for a trip of two or three days. Mons. Godard is proud of a la Belle France, and will exert all his skill to take the conceit out of our daring Young American aeronaut, who will be no less ambitious to carry the stars and stripes higher and farther than they have ever been carried before. It is a personal and professional strife, and yet partaking a little of a national feeling.

THE GREAT EASTERN STEAMSHIP.—A prospectus is out for the Great Eastern Steamship Company, limited in the capital at $230,000. The object of this company, it is scarcely necessary to mention, is to complete the Great Eastern, or Leviathan, steamship, which now lies as a shilling peep show above Greenwich—a benefit only to the white-bait taverns of that hospitable town, which are inundated by holiday seekers, who make the big ship a good excuse, combined with the tiny fried fish (generated from the mud of the Thames) for dinners luxurious, drinks fathomless, equipages stylish and toilets *a la mode* and rotundities. It was recorded in the court papers, months since, as a witticism of the Marquis of Clancicarde, that the Great Eastern was built so large purely with a view to the accommodation of crinoline or steel hoops.

Returning to the project, the proposal is to raise £280,000 in the like number of shares of £1 each. In the prospectus it is set forth that the ship has already cost £240,000, and has incurred a debt of £90,000. With £240,000 additional expended on her, it is hoped that she can be sent to sea, and, as the projectors of this new scheme say, realize a fabulous amount for the shareholders. The estimate made by the prospectus is, that she will make eight voyages to America [either to New York or Portland] during the year, and that her nett earnings will be.....£168,200
Deducting insurance.....£40,000
Wear, tear and depreciation... 49,500
Management..... 5,000
Contingencies..... 9,200—104,500
£49,500
will be left, equivalent to 15 per cent. dividend.

LEA & PERRINS'
Celebrated Worcestershire Sauce ! !
PRONOUNCED BY CONNOISSEURS TO BE THE ONLY "GOOD SAUCE," AND APPLICABLE TO EVERY VARIETY OF DISH.



EXTRACT OF A LETTER from a MEDICAL GENTLEMAN at Madras; to LEA & PERRINS, at WORCESTER, May, 1851.
"Tell LEA & PERRINS that their Sauce is highly esteemed in this country, in my opinion, the most palatable as well as the most wholesome Sauce that is made."

Extensive Frauds
The only Medal awarded by the Jury of the New York Exhibition for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE—the world-wide fame of which having led to numerous fraudulent imitations, purchasers are requested to see that the names of LEA & PERRINS are upon the Wrapper, Label, Stopper and Bottle. LEA & PERRINS will proceed against any one infringing either by manufacturing or vending spurious Sauce, and have instructed their correspondents in various parts of the world to advise them of any infringements.

TO THE PUBLIC.
In answer to the numerous letters addressed to me on the subject of the Mustang Liniment, I would say that I have had no counter-part to it for sale for several years. It was invented by me, and while put up under my control and supervision, was universally accepted by the public, as the best liniment in the world. In 1855 I sold out my interest in it to other parties, and since that time it has passed into the hands of quacks and persons, some of whom have been so unscrupulous as to manufacture it of inferior and cheaper articles, and thus to entirely destroy its value as a medical remedy, trusting for success by selling to its former highly established reputation. Its present proprietors have gone so far as to manufacture other articles in its composition for them in the form of a liniment, to which the Mustang Liniment now vended possesses no one of the distinguishing characteristics of the genuine article, as it was originally invented and manufactured by me. These parties, to enable them to have the ability to foist their worthless and injurious article on the public, use my name as its manufacturer, calling it "Bragg's" Mustang Liniment, and continuing the public to beware of any other Bragg's Liniment as an imposition. While in days with a view of creating a prejudice against "BRAGG'S ARCTIC LINIMENT," an article more recently invented by me, and possessing all the virtues of the original Mustang, with many important additions, the result of experience and later discoveries—and manufactured by Bragg & Burrowes, which firm is composed of my son, Oliver T. Bragg, and Michael Burrowes. This article is sustaining the same reputation as the Mustang, when it was put up pure and in good faith, and is immeasurably superior to the article now vended as the Mustang Liniment. It is also the only liniment manufactured to which the name of Bragg is appended by my authority or consent. In conclusion, I cannot hold myself responsible for any of the evil results of using the Mustang Liniment now vended, and especially after this public disclaimer of any connection with proprietors or its manufacture.
Respectfully, A. M. BRAGG, M. D.

R. R. R.
On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to injections, &c. He was pale, haggard and thin. We ordered Radway's Regulator, one each night, and Radway's Resolvent three times per day. On the eighth of September he called upon us. He was so altered that we knew him not.
His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicative a man of health and energy.
For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent, are a quick and a positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.
R. R. R. is sold by C. Hannington, Bosworth & Son, L. P. Lake, and J. H. Tyson, Milwaukee, and by Druggists everywhere. oct11dawdw

DR. KNAPP,
RECENTLY of N. Y., may be consulted at his Rooms, Walker House, Milwaukee, the first week in every month, commencing Nov. 1, in regard to all diseases, which he treats with unprecedented success. He considers those cases of diseases, which have been pronounced incurable by the Medical Faculty generally, such as Nervous and Neuralgic Affections, Diseases of Women, all forms of Scrofula, Dyspepsia, Constipation & Kidney Diseases, Serous and Tuberculous Affections, including Pulmonary Consumption, Rheumatism, Paralysis, Epilepsy, Remittent and Intermittent Fevers, the diseases of Children, &c. And in the world and wars of the vicissitudes of childbirth are removed by early consultation.
Remember, that the Doctor does not promise to cure all stages of Diseases. While all diseases are curable, it is true, to a certain, that many cases may be incurable this week, not next—to-day, not to-morrow, hence the danger of delay. sept2th249dawly

FASHIONABLE RESORTS.—Gentlemen and their families would do well in their summer trips to the North, for a few months' sojourn at Cape May or other fashionable places, to bear in mind that their medicine chests should be well supplied with Wistar's Balsam, which would be incomplete. We refer to the justly celebrated ELECTRIC OIL of Prof. Chas. De Garth. We say celebrated, for the very reason that it performs in most cases what it is intended for—
Bruises, Sprains, Swellings, Cuts, Burns, Scalds, Toothache, Earache, Headache, Corns, Scrofula, Erysipelas, Sores and Pains, internal and external.
Could we actually come in a number have been received this week, and I enumerate a few of the complaints cured:
Ask Mr. Watkins, of Lynchburg, if Charles De Graffle's Electric Oil did not cure him of Rheumatism and sprains received from a fall.
Ask Rev. Mr. Caldwell if it did not relieve him of a severe cough and pains in the breast in one night.
Ask Mr. Wetch, of Baltimore, if it did not cure him of swelled glands in the throat in fifteen minutes, when the doctors said he would die in a short time.
Ask Mrs. Argyle if it did not relieve her of the headache in fifteen minutes.
Ask Mr. Blanford, of Lynchburg, if it did not cure her of headache in fifteen minutes.
This Oil is mild, pleasant and harmless—its properties are all for good—children should have it given to them for teething and for croup. Beware of base imitators professing to make Electric Oil. They know nothing of its manufacture, their only aim being to get money! Look out for fraud. The only genuine is made at the old establishment, 89 South Eighth street, Philadelphia; not removed as advertised by a base scamp. Name on the wrapper and blown in the bottle.
Druggists and agents must address their orders to Professor Charles De Garth, at his long established store, No. 89 South Eighth Street, a few doors below Chestnut.
☞ For sale by Bosworth & Sons, and J. H. Tesch, Milwaukee; Palmer, Brooks & Davis, and Read & Co., Chicago.; and by Druggists and Merchants generally throughout the country. oct14d14wlw

COMMERCIAL & FINANCIAL.

WEEKLY REVIEW
OF MILWAUKEE MARKETS.

A press of other matters makes it necessary for us to be extremely laconic in our market report this week.—The business for the week however, is so devoid of interest that it affords but little scope for remark. General trade continues tolerably brisk for the season, but produce markets remain dull. Receipts and shipments for the week show a large falling off. Wheat declined 2 to 3c in the early part of the week, but there is a little more firmness in the market to-day in consequence of light receipts and competition amongst millers and shippers to close out cargoes. The range for No 1 Spring to-day, 1@60a75c, for extra 80a83c, and white winter 90a95c.

The members of our Corn Exchange have reorganized, and hereafter the principal business will be transacted on 'change. They have adopted the following grades of wheat as the standards of the market: Extra, Extra No 1, No 1, No 2 and No 3 Spring, and No 1 and No 2 Winter. These agree very nearly with the present grades of the market established by custom.

RECEIVED BY MILWAUKEE & MISS. R. R., Oct. 16.—359 bbls flour, 5,174 bus wheat, 220 bus corn, 780 bus barley, 40 bus potatoes, 1,780 lbs hides, 12,550 lbs sundries, 450 bbls pork, 552 lbs butter, 48 doz brooms.

WHEAT.—We quote No. 1 spring 70a75c, No. 2 do 60a65c, extra 80a83c, and white winter 90a95c—extra grades are scarce, and a brisk competition exists amongst millers. So no choice samples sold at an advance of 2 to 3c on our quotations, but inasmuch as it is caused by a mere local demand and is not reliable, we do not change our figures.

FLOUR.—Quiet and rather lower. Spring extra country brands nominal at $4,87a4,90, winter $4,70a5,25. Sales of 300 bbls extra winter to-day on private terms.

FREIGHTS.—A few vessels have been chartered during the week at previous rates, namely 4½c for wheat to Buffalo and 5c to Oswego.

BARLEY.—We note a decline in barley of 5c. The range is 60a80c for common to choice lots. There is a fair demand amongst brewers for extra samples, but inferior grades are quite dull.

OATS.—There is no change in prices of oats since last week. The range is 35a38c for new, and 40a43c for old for good to choice. Receipts are very light with a corresponding demand.

CORN.—In dull at 50a53c shelled. There is only a local demand for it at present.

RYE.—Nominal at 56c.

TIMOTHY SEED.—1,25a1,50.

CRANBERRIES.—Scarce and in demand at $2a2,25.

POTATOES.—Range from 25 to 37½c according to quality.

BUTTER.—Choice firkin is selling at 11a13c, and fresh roll at 15a16c.

EGGS.—Are not so plenty, and more saleable at 9a10c by the bbl.

HIDES.—Green 5a6c, do salted 6¼a7c; dry 12a13c.

HIGHWINES.—31c in large quantities.

WHISKEY.—20a21c, according to quantity.

HAY.—Timothy $7a9 per ton, marsh $5a6,50.

SPIRITS.—Alcohol 35c, spirits turpentine 60c,½ burning fluid 54c, camphene 65c.

OILS.—Linseed oil 85c, No. 1 lard oil 90c, bleached winter white 1?0.

CATTLE AND PROVISION MARKET.

From 1,200 to 1,800 head of beef cattle have arrived during the week. Sales have been made at $1,75 to $2,50, the latter price for good cattle—but few left over unsold. Near two thousand head have been slaughtered for packing this and last week. Hogs are selling for $4,50 @ cwt, live weight, with fair demand. Sheep range from $2,00 to $3,50 per head.

PROVISIONS.

Old stock mostly used up and new is beginning to come in market:

Messrs. LAYTON & PLANKINTON quote:

MESS PORK—$15a17 per bbl.

MESS BEEF—$6,50a9,50.

LARD—In barrels 11c per lb.

THE LUMBER TRADE.

The lumber trade for the week past shows a considerable falling off as compared with the previous week, consequent upon the decline in produce and the bad state of the roads. Receipts have been somewhat larger and appear to be on the increase.

We quote Michigan, by cargo, $6,00 to $6 25
Green Bay, " $5,00 to $7,00

Among the sales of cargoes we note:

Schooner Farmer, Two Rivers..... $6,50
" Stella, " 7,00

MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF BRIGGS BROTHERS, No. 166 EAST WATER ST., MIL., Oct. 16, '58.

Since our last there has been but little change in the market, except as we note an increase in the supply of currency, and a greater ease on the part of the banks who are discounting with considerable freedom for their best customers. There is but a moderate business doing in produce paper, dealers being too much in doubt to operate to any extent. Both jobbing and retail trades have exhibited a good deal of activity, and collections are made with more facility than we had anticipated for this season. Large quantities of Eastern money are in circulation here, showing a return of confidence in our names and securities, and filling the gap occasioned by the withdrawal of part of the circulation of some of our State banks. There is a heavy demand for money on long time secured by real estate. We have several first class mortgages to sell on favorable terms. Short paper is in request and but little offering of a desirable character.

Land warrants are very dull and prices have still further receded. We quote:

40's selling at	1,10	per acre.
80's	93	" "
120's	80	" "
160's	66	" "

Exchange is firm at former prices, as below:
